

MEMORANDUM

TO: Mayor Jay Kramer and
City Council Members

FROM: Suzy Feeney, Ex. Dir.
Wings for Humanity, Inc

DATE: June 6, 2016

SUBJECT: Downtown New Years Eve Celebration

Wings for Humanity, Inc would respectfully request permission from the City Council to be able to sell alcohol at the second annual New Year's Eve Celebration. This will be held on December 31, 2016 from 6PM till 1AM on January 1, 2017. We will stop selling alcohol before midnight on the 31st but would like to be able to continue our festivities after midnight with our fantastic ball drop, to be followed by our fireworks, that were even better!

We would be asking for permission once again for the ability to do the fireworks shot off from the tennis courts.

We also will have time to do more family oriented events earlier in the evening and will be having an earlier ball drop around 8:00 for families to enjoy and then head home. We have offered this time to the Moonshot Moment team for their programming.

One last thing as an active participant in last years first event, we were most proud of the fact that we help support our downtown businesses and restaurants in a very powerful way. What had been described to me as a ghost town on NYE was a fun, safe event that led to some of the best nights business wide for many restaurants. We look to support that effort even more with a longer time frame to prepare.

Thank you for your time and consideration. We look forward to many more thousands of people this year and hope you will all join us.

Sincerely,
