Existing Septic Tank

Type 1A Tying Into Drain Field

Type 1B Install

A yellow CAT excavator is shown in the process of installing a large, black, ribbed plastic manhole cover into a trench. The excavator's bucket is suspended in the air, holding the cover by a yellow strap. A worker in an orange shirt and hard hat is standing in the trench, guiding the cover into place. The background shows a residential area with a white house and palm trees under a clear blue sky.
